PROFESSIONAL SUMMARY

MERN stack web developer focused on building scalable, responsive, and user-centered web applications using Next.js, React, MongoDB, Node.js, and Express.js. Strong foundation in modern frontend and backend development with hands-on experience building real-world projects, REST APIs, authentication systems, and clean UI experiences. Passionate about continuous learning, problem-solving, and creating impactful digital products.

SKILLS

Core Technologies: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, MongoDB

Tools & Methodologies: Git, GitHub, RESTful API Design, CI/CD Basics

Soft Skills: Problem Solving, Debugging, Attention to Detail, Clean & Readable Code, Pixel-Perfect UI Development, Communication, Adaptability, Working Under Pressure

PROJECTS

World On The Go — <https://github.com/rahinhaque/World-on-the-go>

Built a responsive travel platform showcasing tour packages, destinations, and booking inquiry features using HTML5, CSS3, and JavaScript. Implemented responsive grid layouts, CSS animations, and a modern UI focused on user experience.

QurbaniHat — <https://github.com/rahinhaque/QurbaniHat-Livestock-Booking-Platform>

Developed a full-stack livestock booking platform with secure authentication, full CRUD functionality, and role-based access management. Focused on scalable backend architecture and smooth booking workflows.

Paw Heaven — <https://github.com/rahinhaque/Petheaven-frontend>

Created a modern pet adoption platform using Next.js, MongoDB, and Better Auth. Features include secure authentication, pet listing management, adoption tracking, responsive UI, and dashboard-based management systems.

EDUCATION

Bachelor of Arts (Honours) — Political Science

2nd Year (In Progress) | Narsingdi Government College

Developing analytical thinking and communication skills alongside a growing specialization in modern web development and software engineering.
